Matt and Jeff – the OSC website is now populated with the basics. I am turning it over to you (with START's assistance) for further work as needed. Please make sure other partners are aware of it.

<https://response.epa.gov/spaceagel-84spill>

Bob and Greg – you can see more of the data which is behind the EPA firewall, but you'll have to login with your password to get to that info.

Much thanks,

- Richard
